EDUCATION

Bachelor of Science in Computer Science and Information Technology | Tribhuvan University, Nepal

2017 – 2022

- Graduated with 77.60% aggregate — approximately 3.10/4.0 (TU/NEB standard conversion, Percentage ÷ 25; official WES/ECE evaluation pending), ranked Top 10% of class.
- Academic Excellence Scholarship recipient (awarded three times) for ranking among the Top 3 in semester final examinations.
- Relevant coursework: Software Engineering, Web Development & Technologies, Database Systems, Computer Networks, Artificial Intelligence, Cybersecurity, Project Management, Algorithms, Simulation & Modeling, Image Processing.

PROFESSIONAL EXPERIENCE

Hitachi Energy | Nepal

Software Development Test Engineering – Experienced Professional August 2025 – Present

Associate Software Quality Test Engineer November 2022 – July 2025

Software Quality Test Engineer Trainee September 2022 – October 2022

- Led QA for TRMTracker, an enterprise-level Energy Trading and Risk Management (ETRM) platform, achieving a 30% reduction in post-release defects across four release cycles by designing and executing functional, security, and performance test strategies throughout the release lifecycle.
- Owned release-readiness sign-off for TRMTracker, maintaining a 98.5% regression pass rate and zero critical (Sev-1) defects escaping to production over the past year, by enforcing structured test-exit criteria and analyzing defect trends before each release.
- Built and scaled automated regression suites in Java, Selenium, and TestNG, growing automation coverage from 40% to 75% and automating 350+ test cases across core modules, by architecting reusable, CI/CD-integrated test frameworks tied to GitHub pipelines.
- Cut manual regression time from 3 days to 6 hours per release by migrating high-frequency manual test cases into the automated suite.
- Developing a scalable Playwright-based test automation framework in TypeScript, leveraging GitHub Copilot for AI-assisted test generation, refactoring, and automation workflow optimization.
- Conducted API testing via Postman and Swagger, validating 40+ REST endpoints across third-party interface integrations in TRMTracker.
- Trained and onboarded QA trainees and new team members, bringing 4 trainees to independent test execution within 4 weeks and cutting new-hire ramp-up time by 2 weeks, through a structured onboarding curriculum on automation tooling and Agile processes.
- Facilitated Scrum ceremonies as Scrum Master across an 8-person cross-functional team, improving sprint completion rate from 70% to 90% over two quarters and cutting average stand-up time by 15 minutes through a standardized 15-minute time-boxed agenda.
- Authored interface documentation and QA sign-off reports; led client-specific testing, regression stabilization, and release verification.
- Represented the QA team at LOCUS 2024, Nepal's national technology event, delivering demos and presentations on enterprise QA workflows.
- Promoted from Associate to Professional level (Nov 2022 → Aug 2025) based on sustained delivery of automated testing, documentation, and process improvements.

Parewa Labs Pvt. Ltd. | Nepal

Quality Assurance Intern April 2022 – July 2022

- Performed manual BDD testing, including feature file design, on programiz.pro.

- Conducted a design audit on programiz.pro during a 2-day sale event.
- Automated regression testing for programiz.com using Python and Selenium.
- Collaborated within a Scrum team using JIRA.

CloudFactory | Nepal

Data Entry Clerk *November 2018 – February 2021*

- Entered high-volume data into databases with speed and accuracy.
- Developed interpersonal and collaboration skills working within a diverse, distributed team.

RESEARCH & PERSONAL PROJECTS

Steganographic Data-Embedding Research | BSc.CSIT Research Project

June 2021 – February 2022

- Researched secure data-embedding techniques for images, audio, and video, comparing LSB (Least Significant Bit) and DCT-based embedding for robustness against compression, through a comparative literature review of three steganographic techniques and implementation of the most effective method for each media type.

Responsive Portfolio Website

2025

- Designed and deployed a fully responsive personal portfolio site using HTML, CSS, and JavaScript, with a clean, minimalist, mobile-first layout.

Multiplayer Tetris Game

May 2022

- Built a real-time multiplayer Tetris game using Vanilla JavaScript and Socket.io for WebSocket-based state synchronization.

Web Development — Design Replication

April 2022

- Replicated the datamenter.io website design (slicing) as part of the Parewa Labs internship program.

TECHNICAL SKILLS

- Programming & Scripting: C, Java, Python, C++, C#, HTML & CSS, JavaScript, SQL
- Testing Tools: Playwright with TypeScript, Selenium with TestNG, Katalon Studio, Postman, Swagger, Zephyr Scale
- Collaboration Tools: Git, JIRA, Confluence, Microsoft Office

TEACHING AND MENTORSHIP

Community Educator | Municipality Outreach Program

- Delivered instructional sessions teaching middle school students basic computer usage as part of a municipality-organized educational outreach program.

Mentor | Hitachi Energy, Nepal

- Mentored junior colleagues on system workflows, automation processes, test case design, and QA responsibilities to strengthen team capability and knowledge sharing.
- Delivered internal training sessions on API testing methodology and Agile practices to QA trainees and team members.

VOLUNTEERING AND LEADERSHIP

Volunteer | Prime IT Club, Nepal

- Assisted in planning and executing technical events and workshops during undergraduate studies.

Community Volunteer | Various Initiatives

- Participated in cleanliness drives, blood donation camps, and public awareness campaigns promoting hygiene and civic engagement.

Event Lead | Hitachi Energy, Nepal

- Led and organized employee well-being and team-building events, fostering collaboration and a positive workplace culture.

- Represented the QA team at LOCUS 2024, a national-level tech event organized by Pulchowk Campus, promoting awareness of software testing practices and industry standards.

LANGUAGES

- English — Fluent (IELTS: Overall 7.0, Speaking 6.5, January 2025)
- Nepali — Native
- Hindi — Conversational

CERTIFICATIONS

- ISTQB Foundation Level (CTFL) — Skillsoft, June 2023
- Agile Testing — LinkedIn Learning, March 2022
- Big Data Concepts — Skillsoft, April 2023
- Programming Foundations: Software Testing/QA — LinkedIn Learning, March 2022

AWARDS / ACTIVITIES

- Best Employee — Hitachi Energy (Gift Voucher Recognition, awarded 3 times)
- Academic Excellence Scholarships — awarded three times for ranking among the Top 3 in semester final examinations
- Represented QA Team at LOCUS 2024 (National Tech Event)
- Prime IT Club — General Member
- Organizing Committee Member, Hitachi Energy (Office Events & Activities)
